5  Standing Business

5.1 Risk Management and Workplace Health & Safety
Nathan Marshall reminded committees on the necessity and importance of using personal protection equipment (PPE). He explained there is an increasing requirement to show we are managing and doing everything reasonably practical in following the correct procedures and protecting Volunteers. As part of his role as Cemetery and Volunteering Coordinator he will be visiting committees to ensure they are following the correct safety measures.

If an incident did occur Workcover will investigate and make sure all procedures were followed accordingly. Bermagui committee members said they are struggling to get volunteers due to forms having to be completed prior to undertaking works in the cemetery as well as the need for volunteers to wear PPE. Nathan advised that this requirement is there for a reason and is non-negotiable. BVSC can help with recruitment of volunteers as required.

5.2 Policy and Procedure
There was an issue raised in section 5.4 of the Committee Guidelines and Operations Manual around the need for committees to maintain an asset register at individual cemeteries. It was agreed that some of the manual may not be relevant as it was put in place sometime a go. BVSC will review the manual as a whole including section 5.4 to ensure it remains relevant.

- Action Item 7 – BVSC to review Committee Guidelines and Operations Manual.

6  New Business

6.1 Mapping project update
Karen Terwin gave committee members a look at the mapping program and explained how it has come together and where it is going from here. Karen and Jackie are waiting on the next instruction to hopefully be able to finalise Bermagui and move onto the rest of the cemeteries. Karen was able to show committees the photos of plots in the cemeteries and the high resolution photos that were taken of the individual cemeteries.

Committee members were very appreciative of all the effort and hard work Karen and Jackie have put in to the project so far and can now see the benefits that will come from its completion.

6.2 Nathan to schedule times to meet with individual committees
