	• Waste app						
	• Council Facebook page						
	• Leaflet						
	• Library						
	• Council Office						
	• Word of mouth						
• When caddies were delivered							
<i>FOGO is an alternative to composting and worm farming. From last October people in the Bega Valley with a green bin service can put food organics into their green bin is collected on a weekly basis and turned into compost. When food waste ends up in landfill it produces concentrated greenhouse gases which contribute to climate change. FOGO is great for the environment and reduces future rate increases by diverting food from landfill.</i>							
					Yes	No
