## Kiah Hall - Celebrates

Kiah Hall has reached an amazing milestone, on the 11th November the hall and community alike will celebrate the hall's 60th Anniversary.

The Kiah Hall has been the place for many celebrations over the years, including birthday parties, weddings, Christmas celebrations and many amazing themed dinner nights.

The celebrations will kick off at 7pm 'til late, entry is \$10.00 per head with local music, lucky door prizes, raffles, games and no doubt a bit of reminiscing about some great times.

Please come along and celebrate this beautiful community asset!

Bookings can be made through the Kiah Hall Committee - 0400 440 541.

## Setting the record straight on Environmental Zones

Recent Sydney based media coverage around zoning matters in the Bega Valley Shire does a disservice to the community and those seeking clarity.

Stories published in The Daily Telegraph and echoed on Radio 2GB this week fail the basic principles of journalism and fair play.

At no time has Bega Valley Shire Council been asked to contribute or provide information to this reporting.

Instead, journalists have relied on the perspective of developers with considerable commercial interests and taken advantage of people in difficult personal situations.

Council is keen to set the record straight, a full statement is available On Council's website [www.begavalley.nsw.gov.au/news](http://www.begavalley.nsw.gov.au/news)

## Shire-wide survey for fluoride

After vigorous debate and a number of deputations from community members, Bega Valley Shire Councillors today voted to undertake a comprehensive shire-wide survey regarding the addition of fluoride to the Tantawanglo-Kiah and Brogo-Bermagui water supplies.

Council also resolved to request that NSW Health fund the survey.

Specific details regarding the survey and how community members can participate will be communicated once they are finalised.

## Towamba Road upgrade completed

Teams from Bega Valley Shire Council's works department have recently completed the upgrade of a number of sections of Towamba Road.

The significant project included road realignment, widening problem areas, gravel re-sheeting and the reinstallation of guideposts and signage.

In addition Mitchells Creek Bridge was re-decked with concrete modules to improve its load capacity and 1km of bituminous sealing was undertaken on either side of the bridge.

The primary aims of the project were to enhance both the safety and ride characteristics of the road and generally improve the overall commuting experience between Eden and Towamba.

Council understands that this type of work causes local disruption and officers would like to thank the public for their continued patience throughout the project.

The civil construction team is now undertaking a road and drainage upgrade on Ocean Drive, Merimbula (adjacent to the Ford Park Courts) that will result in the installation of kerb, guttering, stormwater pits and pipes; the renewal of pavement; and additional car parking.

The pavement team have moved onto Candelo-Wolumla Road, where pavement renewal is being undertaken.

For any further information on any of these projects contact Council.
