Long Term Financial Plan 2023-32 June 2023 Update

Bega Valley Shire Council acknowledges and pays our respects to the traditional custodians of the lands, waterways and airspace of the shire.

Executive Summary

The Long Term Financial Plan (LTFP) is an essential element of the Resourcing Strategy that details how the strategic aspirations of Bega Valley Shire Council (Council) outlined in the Community Strategic Plan can be achieved in terms of time, money, assets and people.

The LTFP is a 10-year financial planning document with an emphasis on long-term financial sustainability. Financial sustainability is one of the key issues facing local government, due to several contributing factors including growing demands for community services and facilities, constrained revenue growth, escalating cost of materials and ageing infrastructure.

The LTFP is formulated using estimates and assumptions to project the future revenue and expenditure required by Council to deliver those services, projects and programs expected by the community. In doing so, it considers the resources that impact Council's ability to

fund its services and capital works whilst remaining financial sustainable.

The previous LTFP to this version, adopted in February 2023 as part of Council's Special Rate Variation (SRV) application, included 5 options with Council applying to the Independent Pricing and Regulatory Tribunal (IPART) for Option E- a 24% SRV in 2023-024 and 19.6% SRV in 2023-25 permanently applied, inclusive of 4.1% rate peg (FY2023-24) and 2.5% rate peg (FY2024-25). Council has been approved by IPART to proceed with the above SRV.

As the previous LTFP outlined Option E does close the gap between revenue and expenditure, however it will not be adequate to maintain current levels of service. This option prioritises catching up on our infrastructure backlog in 2023-24 and 2024-25 and then reducing our capital program below recommended levels.

For this updated LTFP, we have modelled 3 options. Option A- Financial Sustainability- remains our recommended position as it would allow Council to meet current and future asset management and operational needs and financial sustainability ratios. This option, recommending the need for a 90% increase in rates, was not pursued in the SRV application to IPART. It is important to continue to demonstrate the gap in revenue that we are facing despite the recent

approval of the two-year SRV. Without further significant asset renewal intervention, the quality of assets (and the services they support) will continue to decline across key service areas of Council.

Option B- Asset Renewal and Services SRV- models the approved SRV which prioritises catching up on our infrastructure backlog in 2023-24 and 2024-25 and then reducing our capital program below recommended levels. Option C- Rate pegdemonstrates the financial impact of maintaining increases inline with the assumed rate peg.

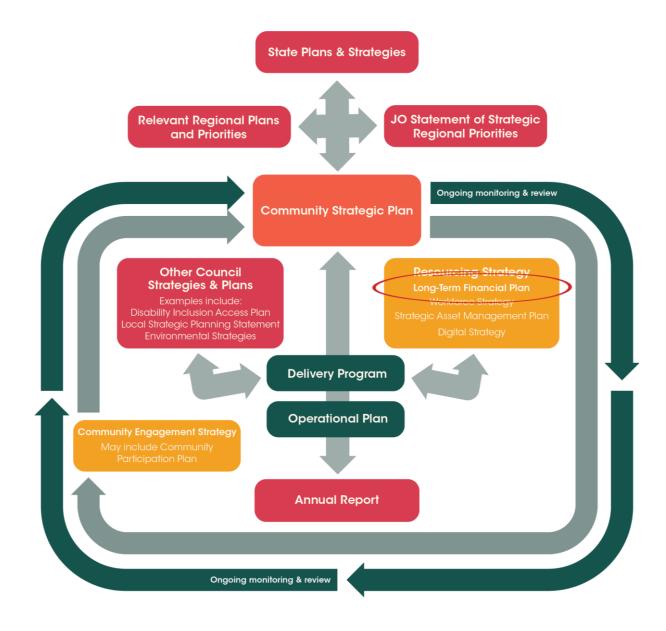

The consolidated scenarios included in the LTFP are all based on one model each for water, sewer and waste. Council adopted a strategic position on waste services (with an improved level of service) in October 2021 that informs the waste model. The Strategic Business Plan for water and sewer services, adopted in July 2022, informs those models. This version of the updated LTFP includes results from QBR1, 2 and 3 in the current financial year (FY23).

This LTFP provides the blueprint for future delivery of works and services at Council with a focus on long-term financial sustainability. To develop this LTFP we have compiled our annual budget for 2023-24 as the base year for the model.

Framework

The LTFP is a decision-making tool that allows various assumptions and sensitivity analysis to be carried out that indicates the ability of Council to deliver cost-effective services to our community into the future, within a framework of financial sustainability. The LTFP includes known and projected events over the next 10 years and compiles the best estimates of operating results and financial position.

It is within this plan the long-term aspirations and goals of our community are tested against financial reality. It underpins all other documents in the Integrated Planning and Reporting framework and is reviewed annually when Council forecasts the next year's budget.

Financial Sustainability

Financial sustainability for the Council means:

- Council must have an appropriately funded capital program
- Council must maintain its asset base 'fit for purpose'
- Council must achieve a fully funded operating position
- Council must maintain sufficient cash reserves
- Council must have adequate resources to meet ongoing compliance obligations.

This presents us with challenges that have informed the LTFP forecasting model. In simple terms, this can be expressed as:

- funding the capital program with a focus on renewing existing assets and not building 'new' assets, including consideration of lifecycle costing of assets in decision-making
- investing in our asset base at agreed service levels (which includes potential asset rationalisation to focus investment on priority community assets)
- ensuring General Fund expenses do not exceed income (stop spending more than we have) and we work towards a positive cash flow
- reporting our externally restricted reserves and actively monitoring internal reserves managed by Council
- achieving our target of \$1.5 million in unrestricted cash
- Ensuring our priority is to meet our legal obligations and all reserves are cash-backed.

The other area of focus is to ensure cost recovery scoping for grants and service areas that should have a cash-neutral operating position.

Council has developed and adopted multiple LTFPs in the last 5 years that all indicated the need for an SRV to increase revenue to close the widening gap between income and expenditure.

The LTFP aims to demonstrate to the public, with sound financial management and comprehensive planning that includes introduction of a permanent SRV, Council can continue to be financially sustainable into the future. Should the Council choose to not proceed with a special rate variation or change the current level of services or projects delivered by Council, the impacts of those decisions and cost to the community must be taken into consideration.

General Assumptions

In planning for the financial year 2023-24 and beyond, Council has made a range of assumptions. Our draft 2023-24 budget and LTFP model is based on the most likely scenarios.

As part of undertaking financial modelling, key assumptions that underpin the estimates must be made. The following assumptions have been used in the modelling contained in the LTFP.

Growth

In assessing future growth, we have referred to NSW Planning and Environment's Local Government Area Population, Household and Dwelling Projections for the Bega Valley.

Inflation

We have applied a 4.1% increase for 2023-24 and subsequent years have been modelled at 2.5% aligned with rate peg modelling. There have been significant increases in the Consumer Price Index (CPI) in the last 12 months. Any movement in the CPI indices can have a significant impact on Council's operating position.

Asset Management

One key assumption of the LTFP is that Council's Strategic Asset Management Plan (SAMP) and Asset Management Plans (AMPs) for each asset class reflect an accurate maintenance profile for all Council's \$1.7 billion of assets (including water, sewer and waste as well as general fund assets).

Council is implementing an asset management system to improve the timeliness, relevance and accuracy of data. It is considered a critical investment for Council if we are to make significant progress in this area of our operations.

Service Standards

Council's current service standards are not all at the required levels, there are some operational areas where additional funding is required to meet service levels including:

- information technology improvements
- record digitisation
- infrastructure design
- additional DA assessment resources
- transport studies including bridge assessments
- implementation of several existing strategies and plans.

These additional costs, where relevant and achievable, have been included in this updated LTFP.

Structure and Regulatory Environment

Council is both a Local Government Authority regulated by the *Local Government Act 1993* and a Water Supply Authority regulated by the *Water Management Act 2000*. This means Council is responsible for delivering the diverse range of services associated with local government such as roads, open space, community facilities and waste management along with provision of local water and sewer services.

Council has separate funds - Water Fund, Sewer Fund, Waste Fund and General Fund - to ensure appropriate reporting of services based on restrictions. The Consolidated Fund refers to the total of all services provided by Council and includes all abovementioned funds.

Revenue Assumptions

In determining the likely revenue that will be available to meet the community's long-term objectives, we have considered the following.

Rates and Charges

Rates and charges are the primary source of income, contributing about 38% of total annual income. The LTFP Option B- model includes the approved SRV increase of 24% inclusive of the 4.1% rate peg for 2023-24 and as advised by the Independent Pricing and Regulatory Tribunal (IPART), subsequent years have been modelled at 2.5%.

As rates and charges are a major component of Council's revenue base, this LTFP also includes modelling an SRV to further increase Council's revenue- Option A.

User Fees and Charges

A number of services we provide are funded by on a user-pays basis. In general, Council follows a cost-recovery philosophy towards the provision of those services. It recognises people's ability to pay and balances an expectation that some services will be cross subsidised from rates for the common good of the community.

In preparing this LTFP, possible future income from fees and charges has been refined by moving towards identifying the true cost of

service delivery for each area of Council, so accurate and reflective fees and charges can be applied. The LTFP model currently allows for a 5% increase for 2023-24 and 2.5% for each year beyond 2024 to apply to fees and charges, except where they are determined by relevant legislation, management committees, those aligned with CPI or a Council resolution.

Grants and Subsidies

Council receives an annual Financial Assistance Grant (FAG) allocation from the Commonwealth as well as grants for specific projects and programs. In preparing this LTFP, we have assumed we will continue to receive both operating and capital grants and have applied a 2.5% increase for the duration of the model.

We have reduced expected grant income in 2023-24 to reflect the removal of current project operating grants that are not expected to continue.

In modelling future grant income, we have reduced our projections to remove reliance on government grants. During the past three years, with multiple disaster declarations and COVID-19, there has been significant capital and operating grants made available to assist Council in funding specific projects and programs. This funding is unlikely to continue

and with the assumption of grant income reducing, Council must seek other methods of funding operating and capital programs without the benefit of grants.

It is important to note that all options modelled in the LTFP still assume that some of the larger capital projects to be delivered will receive partial grant funding through competitive grants. Should this grant funding not be received not all projects to be delivered under the models may be able to be delivered.

Developer Contributions

Section 7.11 and Section 7.12 developer contributions must be expended on the works outlined in the adopted Contributions Plan. Revenue from these contributions is largely aligned to population and housing growth and have been modelled at conservative levels, close to CPI, with allocation of the contributions to capital works sitting at 85% of the projected income. The adopted Developer Contributions Plan is currently under review.

Asset and Land Sales

Council is reviewing its current land and asset holdings and divesting where no longer required for the operation of Council. Income from asset and land sales is only included in the LTFP and annual budget when the sale

proceeds are received and the income is deposited in the appropriate reserve.

Income related to the sale of plant and equipment is outlined in a detailed change-over plan which estimates the trade value of all items of plant and the year of optimum trade. The overall impact of asset sales does not impact the LTFP as the balancing entry will be asset purchase (replacement of the fleet asset). The net impact is always zero.

Reserve Transfers

Council uses reserves (cash set aside for a specific purpose) as a means of building up required funds, rather than relying on borrowing. Council has continued to reduce and realign the reserves we hold. Many of the reserves are restricted due to regulations and cannot be allocated to general use. Reserve balances are reported quarterly and movements are presented to Council via the quarterly budget review process. In all instances where reserve funds are used in the LTFP, calculations are undertaken to ensure adequate funding will exist to meet the LTFP forecasts.

Borrowings

The LTFP recognises debt as an important source of funds for large capital projects.

Council finances some of its major infrastructure expenditure through borrowings.

This allows the cost of these long-lived assets to be spread over a number of years and across

the generations that will use them and smooths out long term expenditure peaks and troughs.

In March 2021, Council investigated the possibility of reducing its current loan obligations, however the break costs for the loans were significant and prohibitive in progressing with any consolidation or refinancing.

The use of loan proceeds is only to fund capital projects.

The LTFP models multiple loans in future years for improvements at Councils airport and water and sewer services. The LTFP forecasts both the quantum of any borrowings required to fund the planned capital project as well as the cost to repay that debt. The model includes a debt allocation and associated repayment profiles.

Interest and Investment Income

The cash rate since the year 2000 has averaged 5%. Currently, interest yields are approximately 2%. The amount received in General Fund is only minor and will not see a significant change, with interest rate movements. Income from interest and investments in the LTFP model is set at 2.5%.

Other Revenue

For operating revenue this includes items such as fines, recovery fees, fundraising and insurance claims. These have been forecast to increase by 4.1% for 2023-24 and 2.5% for each year beyond 2024. Capital contributions by third parties (not including government) are

included in the LTFP or annual budget process as they are confirmed.

Expenditure Assumptions

In developing expenditure forecasts, new expenditure items and ongoing commitments have been considered. This includes costs for capital and ongoing expenditure such as maintenance costs and capital renewals for infrastructure assets. Consideration has also been given to appropriate phasing of when the costs are expected to be incurred including expenditure for planning, construction, implementation and ongoing maintenance.

The capital expenditure forecasts are guided by Council's Asset Management Plans. These values represent the funding required to deliver on the adopted level of service. It is important to understand that a change in level of service, whether to increase or decrease, must result in a change to the funding of that service as well as its resourcing profile.

To provide better clarity and consistent reporting in line with our financial statements and to foster links through to our Asset Management Plans, this LTFP categorises operating expenditure into:

- employment costs
- borrowing costs
- materials and contracts
- depreciation and amortisation
- other expenses.

Due to the difficulties in forecasting some of these categories, the LTFP in some instances uses a historical trend formula to assign expenditure as a guide to future decisionmaking.

Employment Costs

Employment costs are modelled at 5% in FY24 and then 3.5% across the LTFP model and are impacted by several issues including skill shortages, staff turnover, workforce demographics, superannuation increases, award salary increases being above CPI and the rate peg. The Local Government State Award is currently under negotiation with in-principle agreements reached in May 2023. The LTFP also includes the superannuation guarantee increase.

Materials and Contracts

Material and contract costs represent a significant investment to deliver services to the community. It covers all materials used in operational activities including contract and consultancy expenditure. The LTFP allows for an increase of 4.1 % for 2023-24 and 2.5% for each year beyond 2024. Increasing costs of materials, as well as the availability of these materials, create many challenges for Council. The cost of construction has risen significantly impacting Council's capacity to continue to

deliver the same level of service when revenue is constrained under annual rate-pegging.

Borrowing Costs

The borrowing costs on any new borrowings has been modelled at 5%.

Depreciation and Amortisation

Depreciation is a charge made against each of Council's assets to measure its degradation over the financial year, less any residual value at point of sale. Council's depreciation methodology can be found in the notes to the General Purpose Financial Statements. Estimates have been included for the projected depreciation cost of new assets identified within the proposed capital works program.

Other Expenses

This category primarily relates to insurances, statutory charges (including election costs, emergency services levy) and other program expenditure such as Councillor expenses and valuation fees. The LTFP allows for an increase of 4.1 % for 2023-24 and 2.5% for each year beyond 2024 excluding insurances which have been modelled based on advice from Council's insurer.

Assumptions Table

| Assumptions tuble | 2023-24 | 2024-25 | 2025-26 | 2026-27 | 2027-28 | 2028-29 | 2029-30 | 2030-31 | 2031-32 | 2032-33 |

Options Modelled

We have modelled three options in this Long Term Financial Plan. Option A- Financial Sustainability- is the recommended pathway as it would allow Council to meet current and future asset management and operational needs and financial sustainability ratios. Option B- Asset Renewals and Services SRV- models the approved SRV. Option C- Rate peg- models increasing revenue by the rate peg only.

| | Option A- Financial Sustainability | Option B- Asset Renewals and Services SRV | Option C- Rate Peg only |
|------------------------------|---|--|--|
| | SRV with no service level changes. This option remains our recommended position as it would allow Council to meet current and future asset management and operational needs and financial sustainability ratios. | SRV with service level changes - phased over 2 years. | Rate peg only (assumed at 2.5%) with significant service level changes. |
| Special Rate Variation | 90% increase permanently applied. | A permanent increase to general rates of 24% in 2023-24 (inclusive of a 4.1% rate peg) and 19.6% in 2024-25 (inclusive of an assumed 2.5% rate peg). This results in a cumulative rate increase of 48.3% at the end of 2024-25. | NIL. |
| Service Changes | This option, recommending the need for a 90% increase in rates, was not pursued in the SRV application to IPART in February 2023. It is important to continue to demonstrate the gap in revenue that we are facing despite the recent approval of the two-year SRV. Without further significant asset renewal intervention, the quality of assets (and the services they support) will continue to decline across key service areas of Council. | Council has significantly reduced its current levels of service by an average of \$13.9 million each year over the life of the LTFP. This option prioritises catching up on our infrastructure backlog and reducing our capital program below recommended levels. | This option demonstrates the financial impact of maintaining increases in line with the assumed rate peg of 2.5% across the 10 year LTFP. This option demonstrates an unsustainable financial trajectory and would mean Council are not able to manage core assets such as roads and bridges. Council would need to reduce its current levels of service by an average of \$25.9 million each year over the life of the LTFP. |

Rate Category Impact

The approved Asset Renewals and Services SRV is calculated on your general rates only. It does not apply to water, sewer or waste charges.

Below is the average impact for each of the three rating categories – although we stress the precise outcome for each ratepayer is dependent on the land valuation for the property. These impacts are based on 2022 land valuations.

| RESIDENTIAL | 2023-24 (incl. 4.1% rate peg) | Difference between incre | een rate peg only ease | 2024-25 (incl. 2.5% rate peg) | Cumulative difference between rate peg only increase | | | |
|--|-------------------------------|--------------------------|---------------------------|-------------------------------|--|---------|--|--|
| Median land value \$387,000 *based on 2022 VG | | Wests Wests | | | | | | |
| Land Values | | Yearly | Weekly | | Yearly | Weekly | | |
| OPTION A - 90% increase permanently applied | \$2,158 | \$969 | \$18.63 | \$2,212 | \$993 | \$19.10 | | |
| OPTION B - 24% in 2024 and 19.6% in 2025, permanently applied | \$1,414 | \$225 | \$4.33 | \$1,691 | \$472 | \$9.08 | | |
| OPTION C - Average residential rate under rate peg increase only | \$1,189 | | | \$1,219 | | | | |

These options all include the rate peg for 2023-24 of 4.1%. Assumed rate peg of 2.5% thereafter.

| FARMLAND | 2023-24 (incl. 4.1% rate peg) | Difference between increase in | een rate peg only ease | 2024-25 (incl. 2.5% rate peg) | Cumulative difference between rate peg only increase | | |
|--|-------------------------------|--|---------------------------|-------------------------------|--|---------|--|
| Median land value \$1,022,500 *based on 2022 VG Land Values | | Yearly | Weekly | | Yearly | | |
| OPTION A - 90% increase permanently applied | \$2,158 | \$969 | \$18.63 | \$2,212 | \$993 | \$19.10 | |
| OPTION B - 24% in 2024 and 19.6% in 2025, permanently applied | \$2,632 | \$1,443 | \$27.75 | \$3,148 | \$1,929 | \$37.10 | |
| OPTION C - Average Farmland rate under rate peg increase only (4.1%) | \$2,214 | | | \$2,269 | | | |

These options all include the rate peg for 2023-24 of 4.1%. Assumed rate peg of 2.5% thereafter.

| BUSINESS | 2023-24 (incl. 4.1% rate peg) | Difference between incre | een rate peg only ease | 2024-25 (incl. 2.5% rate peg) | Cumulative differrate peg or | erence between nly increase |
|--|-------------------------------|--------------------------|---------------------------|-------------------------------|------------------------------|--------------------------------|
| Median land value \$361,500 *based on 2022 VG Land Values | | Yearly | Weekly | | Yearly | Weekly |
| OPTION A - 90% increase permanently applied | \$3,863 | \$2,674 | \$51.42 | \$3,960 | \$2,741 | \$52.71 |
| OPTION B - 24% in 2024 and 19.6% in 2025, permanently applied | \$2,531 | \$1,342 | \$25.81 | \$3,027 | \$1,808 | \$34.78 |
| OPTION C - Average Business rate under rate peg increase only (4.1%) | \$2,129 | | | \$2,182 | | |

These options all include the rate peg for 2023-24 of 4.1%. Assumed rate peg of 2.5% thereafter.

Performance Monitoring - General Fund

A key part of the LTFP is the measurement of performance against the plan. IPART and NSW Treasury Corporation (TCORP) have provided ratios which serve as benchmarks to assess the measurement of performance and long term financial sustainability of local government. Council is required to publish the ratios in the Annual Financial Statements under Note 26(a). The performance measures demonstrate trends on the basis of forward projections and assumptions contained in the LTFP.

These projections are based on **Option A for the General Fund**.
